Remote Supports

Is a service, not a thing

- Remote Supports is not replacing humans with technology. We are a trained workforce connecting and supporting people through technology.

Independence For Emma

A MOTHER'S JOURNEY

SafeinHome.com

Independence can look differently to everyone.

How can Remote Supports help you to live more independently?

The SafeinHome Mindset

- Remote Supports is consistent and reliable communication that encourages decision-making skills.
- Our remote support professionals positively reinforce decision making to help encourage greater independence and improve daily living.
- Always Ready – Always Available

How Remote Supports with SafeinHome work

Steven

Kitchen Safety

What is important to Steven? (Goals in ISP)

- Steven would like to be more independent when making his bedtime snack
- SafeinHome will contact Steven at 7pm to discuss the evening snack in case Steven has basic questions about how to prepare it.
- Steven is 45 years old and has a diagnosis of Down Syndrome

SafeinHome Solution

- Steven has a GeoComm in case he needs to contact someone Immediately.
- A two-way communication tablet so Steven and the SafeinHome Remote Support Staff can communicate every evening.
- A stove shut off sensor in case Steven forgets to turn off the stove.
- A cellular-enabled smoke detector in case of a fire.
- *Care Circle feels comfortable with the assistive technology solutions and daily human interaction with the Remote Support Staff.*
